

Based in Therwil, INTEGRA Metering AG has been developing and producing high-quality water and thermal energy meters for utilities, municipalities, property management companies, and building operators all over the world since 1928. Our products and services contribute to the careful use of energy and water. Today, we focus our knowledge and expertise on the development of future-oriented IoT solutions for smart metering & smart cities.

To strengthen our team in Therwil BL we are looking for a

## Strategic Purchaser (100%)

Sector mechanics, electronics, metal industry

### › Your main tasks

- › Develop and implement efficient procurement and commodity group management strategies
- › Manage the company's procurement portfolio to ensure spend transparency
- › Coordinate new projects between internal teams and external suppliers/partners
- › Negotiate, prepare and approve external agreements, taking into account the objectives and requirements defined by Purchasing Department and the customers.

### › Your profile

- › Professional experience in industry and in Strategic Purchasing
- › Familiarity with procurement and supplier management and related software
- › Ability to negotiate and maintain network relationships, both internally and externally
- › Understanding of market dynamics and sound business judgement
- › Reliable and decisive
- › Strong project management skills
- › Confident in handling, analyzing and interpreting data
- › MS Office application
- › Use of SAP R/3 modules
- › Fluent in English, knowledge of French is an advantage.

### › We offer

A challenging position in our company with a lot of creative freedom in an interesting, exciting working environment. We promote and support our employees individually and offer a high degree of flexibility in the workplace. You will be in our globally active company in an international and at the same time very familiar environment.
